

JESSICA WAZILEWSKI

Developer

SUMMARY

Presently working, from home, in a software company focused on agrobusiness, I work with PL/SQL on Oracle for backend and use Oracle Forms for frontend. We are on studying process and starting to adapt all our frontend with Angular 2. I'm attending a graduation for Developing Analysis on Uninter and also took courses like CS50 from Harvard on basic module and Web module.

My pretention is to work as a Full Stack Web Developer. I also have knowledge on Angular2, CSS, HTML, C#, Javascript and have experience with Agil work.

I'm dedicated, responsible, focused and love to learn, since I decided to start on this profession I've been dedicating my time on learning and hope that I can contribute to your projects!
